Focus Systems wins Public Cloud award in SAP AWARD OF EXCELLENCE 2023 (Cloud category)!
Highest total domestic annual sales of SAP S/4HANA Cloud (RISE with SAP)

Focus Systems Corporation (based in Shinagawa, Tokyo; President: Keiichi Mori; “Focus Systems”) has taken out the Public Cloud award at SAP AWARD OF EXCELLENCE 2023, run by SAP Japan Co., Ltd. (based in Chiyoda, Tokyo; President: Hirofumi Suzuki; “SAP Japan”).

This year marks the 26th iteration of SAP AWARD OF EXCELLENCE, launched in 1998 to acknowledge partner enterprises that have made outstanding contributions in the SAP field and achieved outstanding levels of customer satisfaction.

Focus Systems is the inaugural recipient of the new Public Cloud award, introduced just this year, in recognition of our achievement in recording the highest annual domestic sales of the SAP S/4HANA® Cloud (RISE with SAP) product.

Our company has over 20 years of experience in the development of ERP systems and is a leading Sler providing effective solutions for success tailored to the needs of wide range of domestic clients. We have been strategically involved with SAP solutions since November 2020, when we entered into a SAP PartnerEdge contract and made a full-scale entry into the market. Our company was elevated to the coveted SAP Gold Partner status in December 2021, having recorded stunning sales of SAP S/4HANA Cloud in our first 12 months, which was an unprecedented achievement.

We are proud and honored to be the first company to receive the Public Cloud award, and also cognizant of the responsibilities that come with being an award recipient. Rather than
