

# Supplementary Materials for the First Quarter of the Fiscal Year Ending March 2026 (50th Business Year)

August 8, 2025
Focus Systems Corporation
(Securities Code: 4662)

Summarized Results for the Three Months Ended June 30, 2025

P. 3~

Segment Overview

P. 5~

Financial status, etc.

P. 9~

Earnings and Dividend forecast
Fiscal Year Ending March 2026 (50th Business Year)

P. 11

## Achieved record-highs for both sales and all profit levels.

Under a Medium-Term Management Plan that aims to improve profitability, promoted human capital investment and steadily generated profits through increasing the number of high-profit projects, price pass-through, and streamlining

(Unit: Million yen)

	Q 1 Results			
	FY2025	FY2026	Amount Change	Year-on-year change
Net sales	7,998	8,507	508	6.4%
Operating income	323	864	540	167.0%
Ordinary income	335	877	541	161.4%
Net income	229	659	430	187.7%

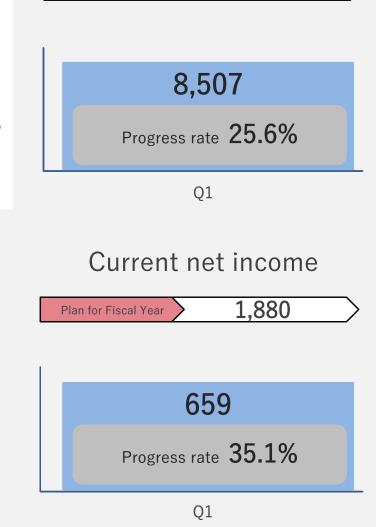

33,250

(Unit: Million yen)

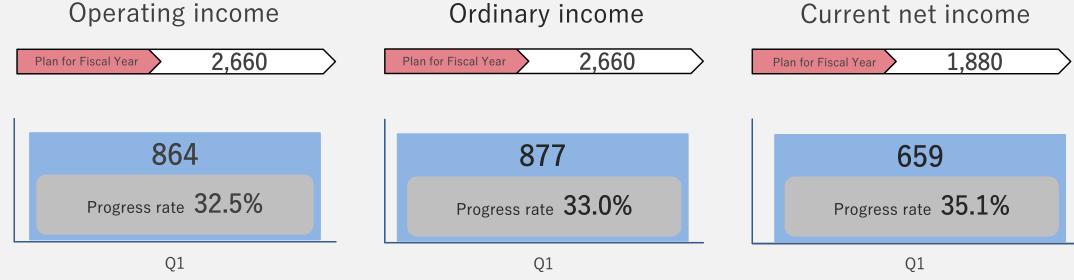

Strong start to the year with sales up approx. 25% and profits up 32-35% YoY.

- Results driven by our strategic focus on profitability and successful price negotiations.
- The near-term demand environment is robust. supported by solid risk management.
- We will intensify our focus on sowing the seeds for future growth, aiming to achieve new record-highs in sales and profit.

Net sales

Plan for Fiscal Year

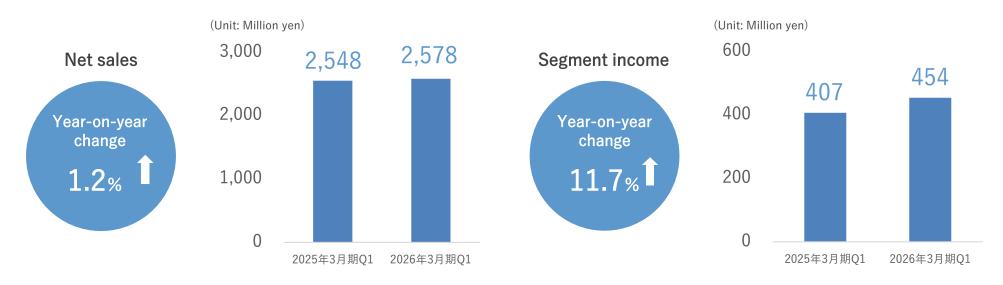

## **Public sector**

From the design and manufacture of social infrastructure-related systems, whose end users are mainly government offices and local governments, through to post-system operation management and maintenance

Both sales and profits increased due to smooth project progress across all business segments and price pass-through

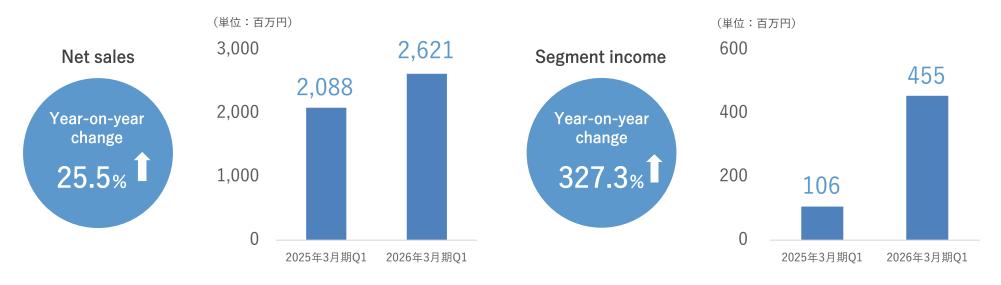

- The social security sector, as well as fields related to automotive and medical care, are driving growth.
- As expected, eLTAX-related projects peaked temporarily in line with life cycle progression.
   Projects related to the individual number (My Number) are progressing steadily.
   \*eLTAX (Japan's local tax portal system)

# Enterprise business

Mainly corporate company core business systems/online system development, network/infrastructure design/construction, RPA solutions, related operation/maintenance, and ICT consulting

Sales and profits increased due to a reactionary rise in the number of low-profit projects that occurred in the same quarter of the previous year, as well as the effects of upselling

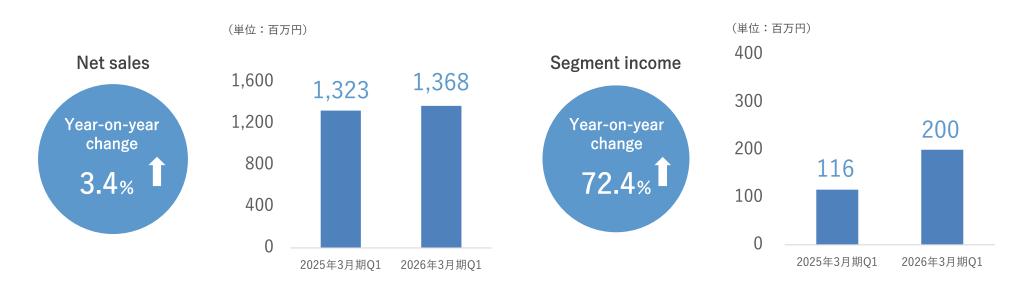

- SI projects for flagship products (intra-mart, Biz∫) contributed to continued improvements in profit margin.
- · Although there was varying project performance in the infrastructure field, new orders from existing customers contributed to profits, resulting in strong overall performance.

# Wide-ranging solutions

Communication control system development, embedded system development, system development for private companies and government agencies, AI solutions, related operation / maintenance, and ICT consulting, mainly in the Tokyo, Nagoya, and Osaka areas.

The shift to high-profit projects and price pass-through of cost increases were successful, leading to increases in sales and profits

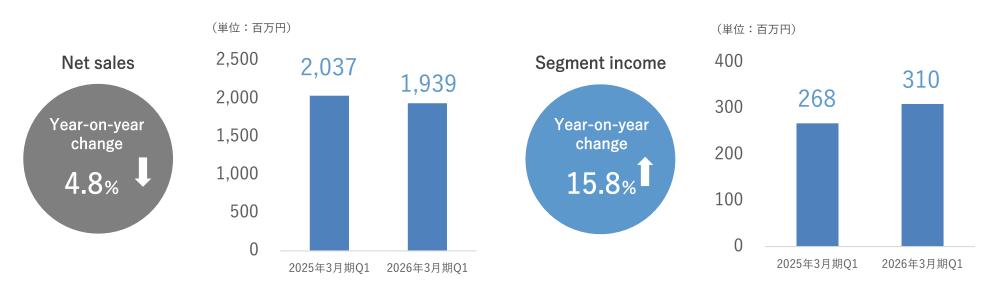

- While we worked to acquire projects as a prime contractor, existing projects contributed significantly to improvements in profit margin in the first quarter of the fiscal year.
- · Performance in fields related to embedded systems and communications remained flat.

### **Innovation**

Mainly infrastructure design/construction, mainframe construction, system development, related operation/maintenance, in-house product manufacturing, provision of IoT solutions

Sales fell but profits increased as development projects as a prime contractor contributed to profits amid steady performance by infrastructure projects

- · Although sales declined due to business expansion focused on improving profitability, profit margin improved due to an increase in development projects as a prime contractor.
- The in-house product-related field saw a slight year-on-year increase amid development and quality improvements. Inquiries are on the rise.

(Unit: Million yen)

	Previous Fiscal Year	First Quarter of the Current Fiscal Year
Assets		
Current assets	13,584	14,469
Non-current assets	7,308	7,454
